

Seek alternatives to Yellow Tail

Written by Don Batie, President, Dawson County Farm Bureau

If you love wine with your steak, pork chop or chicken breast, please know that Yellow Tail wines are not a good choice. Recently Yellow Tail announced a \$100,000 donation to the Humane Society of the United States (HSUS). Do not confuse HSUS with the local animal shelters, they have no connection whatever. HSUS is actually a very rich political lobbying organization whose chief goal is to eliminate all animal agriculture from the United States, forcing everyone into a vegan diet. We ask readers to refrain from buying Yellow Tail wines and share your opinion of its donation on its Face-book page or its Web site. Thankfully here in Nebraska we have many wonderful local wines to choose from and encourage readers to buy locally.
