Four youths, ranging in age from 17 to 20 years old, were injured Sunday night when a utility terrain vehicle in which they were riding tipped on south Cottonwood Drive.

Gothenburg Fire Department rescue captain Jason Wagner said all four youths were taken by ambulance to Gothenburg Memorial Hospital with non life-threatening injuries.

One of the accident victims was later taken to a hospital in Omaha.

Unconfirmed reports listed the injured as Alix Meisinger and Alec Foster of Gothenburg, Kaylea Reyes of Cozad and Annabelle Greger, address unknown.

Wagner said the vehicle was southbound on Cottonwood Drive, near the city's wastewater treatment plant, when the hood flipped up and struck the driver on the hand around 9 p.m.

The driver, he said, overcorrected and the UTV fell on its side.

Seat belts were not in use, Wagner said.
