Over 50 people found Saturday was a good day for a stroll while supporting the North Platte Women's Resource Center's Walk for Life. Walkers in Gothenburg raised over \$6,400 as a part of six community walks that brought in a grand total of over \$42,000 as of Tuesday, according to center director Amy Woods. Additional donations are still expected.

The Women's Resource Center offers emotional support and practical assistance to pregnant women helping them carry to term. It serves North Platte and surrounding communities including Gothenburg. Besides the walk, bounce activities and face painting for kids were offered. Donations can still be sent to: Women's Resource Center, 316 E. Front St., North Platte, NE 69101.
