A Brady resident suffered severe injuries after his vehicle rolled into a ditch north of Brady last week.

Dave Pedersen, 45, over-corrected his 2006 Ford F-350 after his wheels went into the ditch around 8:07 p.m. Nov. 18, according to Lincoln County Chief Deputy Roland Kramer.

Kramer said Pedersen's truck rolled into the opposite ditch and he was ejected from the vehicle.

Alcohol was not a factor, Kramer said, but he may have been speeding.

Pedersen was transported to Great Plains Regional Medical Center in North Platte before being flown to Good Samaritan Hospital in Kearney.
