Digging through plastic bag after plastic bag of utility bill stubs, bank statements and greeting cards from the past nine years left me wondering if my father ever threw anything away.

That task of cleaning out my dad's tiny efficiency apartment after his death didn't seem so daunting until I was half a day and 10 full trash bags into it.

That's when I realized the chore of sorting and the overwhelming sense of loss were outweighing his gift of pre-planning.

I sat down to find peace on the kitchen chair he always occupied, surrounded by his things and engulfed in his memories.

all the times I'd been in this room, I'd never noticed that jar.

As soon as the cool silver hit my hand, I knew this was everything I needed to find in the aftermath of my father's death: Two traditional silver dollars and one bearing the likeness of Susan B. Anthony.

I will never know exactly what my dad was thinking when he put those three coins in that jar. I know when I found them, though, that I had an instant sense of relief, that everything is going to be OK.

The two dollars depicting Dwight D. Eisenhower represent his two grandsons. No one made him more proud than they did.

And the female dollar? Well, I am his only child.

My father didn't leave me a fortune but the three dollars I found will always be all I need.
