I'm proud to support Matt Williams for Legislature. We need a representative that can be an effective advocate with others from all across the state for ag issues and our rural communities. Matt not only understands agriculture and how to take advantage of opportunities to expand agriculture in Nebraska, he understands how to make the case for rural development in the Nebraska Legislature. Matt has also demonstrated leadership at the University of Nebraska and understands how important ag research is to our state. Join me in voting for Matt Williams on May 13.
